

NOTES:

1. part item # 1 - 1624 body
2. part item # 2 orifice - orifice hole dia "A" = #56 drill (.047) is standard. Uses orifices p/n QS-xx-BR for smaller sizes where xx = -5=.005, -8=.008, -13=.013 etc -
3. standard .047" orifice without insert can replace p/n 796-047 part.
4. Repair kit: 1624-4-xx where "xx" corresponds to orifice size as in note 2. Repair kit includes item #2.
